

Corporate Views

1. What is your company all about?

Armada creates innovative, fully integrated supply chain solutions that deliver competitive advantages and improve business performance for our clients. Through our long tradition of partnering with our clients, we have become one of the largest fully integrated logistic providers to the restaurant industry, in addition to serving broader industries, with operations and offices around the country.

Current clients range from Fortune 500 companies to privately held and family-owned businesses. We believe that "There's a Better Way" to manage supply chains - a better way rooted in simplicity, transparency and extraordinary service by providing outsourced logistic solutions that create smaller, smarter and more agile networks.

2. What makes your company different than other companies in your industry?

Armada's unique business model is built on developing long-

term strategic partnerships with our clients and operating with transparency, which allows for financial visibility. We specialize in creating strategic solutions and executing tactical operations across our clients' networks resulting in competitive advantages. Additionally, our team of engineering experts evaluates supply chains using advanced analytical tools to create solutions that optimize logistic operations and support business strategies. Armada's services include Supply Chain Planning, Supply Chain Technology, Warehouse Solutions, Transportation Solutions and Global Logistics.

3. What was your company's most recent greatest accomplishment?

Armada's innovative service offerings provide new opportunities for us to add value to our clients' networks in the ever-evolving supply chain industry. Our company continues to grow within our current client environments, as we provide new solutions and applications for their supply chains, and also as we broaden our client base through new business partnerships. Armada also recently opened a new 450,000 square foot warehouse facility in the Atlanta area to better serve the ReDistribution and storage solutions needs of our clients.

4. What is the biggest challenge you face in your industry?

Technology is evolving at such a rapid pace that our clients need their supply chains to be agile and responsive in order to ensure that customer demand can be satisfied. Additionally, the marketplace is constantly innovating how it engages with its consumers and their changing demands, which also necessitates that supply chain networks be proactively managed.

5. Why is your company a CSCMP Corporate Member?

Armada considers CSCMP an industry-leading supply chain organization and finds value in its research and educational track as well as the professional growth and industry peer group connections that accompany the membership.

The Living Model; Supply Chain Transformation with Confidence

Description

As the speed of change in global trade increases, supply chains have to accelerate their ability to adapt. Transforming with confidence requires data, modeling and simulation. The Living Model is a powerful enabler that companies rely on.
