

ARMADA Presented with Outstanding Performance Award

We are pleased to announce that Armada was presented with the 2015 Chick-fil-A Outstanding Performance Award at its Partner's Meeting held in Atlanta, GA on May 2. The award is given annually to suppliers who demonstrate exceptional performance in adding value to the Chick-fil-A supply chain. This year, six awards were presented.

Armada was recognized for our contributions in supporting Chick-fil-A system initiatives and, in particular, our ability to create and execute ReD Edge, our innovative solution that helped with the implementation of their No Antibiotics Ever (NAE) Commitment.

We value our long tradition of partnering with our clients and our deep-rooted commitment of extraordinary service in providing logistic solutions that create smaller, smarter and more agile networks.
