

**For your  
supply chain,  
there is a  
better way.**

# Solutions to a better way.

Insights that benefit your strategy, operations and profitability.

## Supply Chain Planning

Proactive supply chain management requires a continuous focus on comprehensive, fact-based network design and product flow optimization that aligns with your strategic goals. Our engineering-based approach allows us to analyze your logistic operations from start to finish, driving efficiency and reducing costs across your supply chain.

## Supply Chain Technology

Armada combines in-depth experience with state-of-the-art technology to create more transparent, efficient, cost-effective supply chains. From lethargic to agile, from reactive to proactive, Armada is changing how supply chains are managed.

## Warehouse Solutions

From targeted warehousing and storage, to strategic ReDistribution programs and efficient inventory management, Armada's experienced logistics professionals are committed to protecting your brand and providing quality across the warehouse management spectrum.

## Transportation Solutions

Our transportation solutions provide high service levels, committed capacity and cost stability to support the long-term success of your brand. We align your transportation needs into one integrated platform that ensures complete visibility and centralized accountability.

## Global Logistics

Our goal is to optimize your supply chain while meeting the challenges of international trade. Clients around the world rely on Armada's global services and distinctive approach to save them time and money.

**Armada creates innovative, fully integrated supply chain solutions that deliver competitive advantages and improve business performance for our clients.**
